EUPEN.02/2015

Eupen Radiating Cables receive Underwriter Laboratories accreditation¹⁾ for meeting the stringent UL1685 – FT4/LS Standard and, thus, being compliant with the NFPA 130 – 2014

Underwriters Laboratories

Radiating Cables

Eupen manufactures a full range of Radiating Cables, RF-Feeders, Connectors, Jumpers and Accessories. The EUPEN range of Radiating Cables includes Wide-Band radiating cables – without stop bands up to 3.5 GHz – as well as Tuned Cables, which offer the best compromise between Coupling and Longitudinal Losses within a particular frequency range.

Our radiating cables are now available with an optional HLFRU outer jacket, meeting the requirements of NFPA 130 – 2014. These cables also comply with IEC/EN standards.
